DULL DAY FOR SPECULATION

LITTLE LIFE IN GRAIN AND PROVIS-IONS MARKETS.

Everything but Lard and Ribs n Trifle Higher-Wheat Market Is Now in the Usual Rut Again.

Chicago, July 12.-There was very little life to any of the grain and provision mar-kets to-day. Light world's shipments were an important sustaining influence in the wheat market. The other markets simply followed the lead of wheat. At the close the following changes were recorded: Wheat, % 1140 higher; corn, the higher; oats, a shade higher. Provisions, the only minor market showing any independence, closed 24c higher to 5c lower.

Of wheat, it may be said that the market has now fairly gotten into the usual rut. The opening price for September to-day was from 554c to 654c, a shade under Saturday's closing price, and up to 12 o'clock the range had only extended from 654c to 654c. The news was rather contradictory. Liverpool opened weak and decidedly lower; new wheat was appearing more liberally in the leading markets, while there was very little appearance of foreign buying orders. The world's shipments, however, had a builtsh tendency, as the amount shipped by the various countries last week aggregated only 4,25,000 bushels, as against 6,15,000 bushels the week before. The visible supply report was also bullish, as it showed a decrease last week of \$14,000 bushels, where there had been an increase the corresponding week last year of 21,000 bushels, where there had been an increase the corresponding week last year of 21,000 bushels. The receipts at Chicago since Saturday were only 9 carloads, of which 5 were new winter of various kinds. Minneabolis and Duluth reported receipts of only 255 cars, against 81 the corresponding day of last year. Kansas City advised the receipt of 122 cars of new wheat, which was the most bearish item of the forenoon news. The government report, issued Saturday, did not seem to exert much influence, although the indicated crop was nearly 100,000,000 bushels less than what some of the private bureaus have reported. The market touched \$65,665Me (tite in the session er; new wheat was appearing more libershorts, and sold up to \$55\cdot c. It reacted to \$55\cdot c. Which was the price at the close. Speculative business in corn was much smaller than of late, and operations were argely of a scalping character, with marrow fluctuations. The tendency during the morning was moderately downward on the generally favorable crop prospects. Local receipts were 68 cars. September opened a shade lower at 25\cdot c. Sold at 25\cdot c. where it closed.

Onto the first covered on the late raily in wheat, a firm feeling prevailing at the close. Local receipts were 68 cars. September opened a shade lower at 25\cdot c. Sold at 25\cdot c. where it closed.

Onto the first covered on the late raily in wheat, a firm feeling prevailing at the close, Local receipts were 58 cars. September opened a shade lower at 18\cdot c. Sold at 25\cdot c. where it closed.

Onto think this state will hast year and may be less than half an average crop. The best weather from now until outs are harvested cannot improve the crop.

A message received from Lincoln, Neb., yesterday says: Reports received at the officiency. There was a good visible decrease. The visible supply is now 1.30,000 to the light of the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has been very injurious to the onto the last three days has b

In provisions, the consideration was the sucrmous hog receipts, some 11.00 more than expected. This caused a very weak opening, and Equidation from all sources resulted in further losses. The market railed later, however, when the grain market showed improvement. At the close, September park was 21gc higher at \$1.52\(\frac{1}{2}\), September lard 5c lower at \$1.30, and September ribs about 21gc lower at \$4.32\(\frac{1}{2}\).

The market yesterday showed fair life and values ruled steady at Saturday's figures. The arrivals were the best of the new crop, but a good deal went on contract, leaving only fair offerings on the open market, and as millers and elevators both wanted supplies, salesmen mahaged to hold prices steady. Cables were lower, but the was more speculative life in Chicago, and futures a little stronger than Saturday, so one influence offset the other. By sample on track here at Kansas City. Stocks and Bonds.

New York. July 12.—Sugar occupied the largest share of attention in the stock market to-day, and its buoyancy was a sustaining factor through the whole list, with the exception of such stocks as were subjected to special depressing influences. The course of Sugar was directed by the gossip about the tariff conference in Washcompany's lines in Nebraska, lowa and Missouri show a general rainfall since Saturday sufficient to practically insure the success of the crops. Although some taxicity was felt on account of the high temperature, no damage from hot winds has occurred.

A special to The Journal from Newton, Kas, says: The report that the corn crop of Harvey county had been damaged 25 per cent was greatly exaggerated. The corn in most places is looking fairly well and will, if there are no long continued hot spells, make an average crop. The wheat crop is finished and threshing is beginning. A number of farmers are reporting that the wheat is threshing from thirty fo thirty-five bushels to the acre.

London, July 12.—According to the Mark Lane Express it is said that the English wheat crop will show an average of twenty-eight bushels to the acre, which is about two bushels below the normal. The same authority, commenting on the report that the Russian crops have been so seriously damaged during the last fortingent that the government is preparing to take exceptional measures for the relief for agricultural distress, says; "This is a strange rumor to reach us in July, and we advise the public to be chary about accepting it."

A comparative statement of the world's shipments is as follows: Russian last week, 1490,000 bushels; a year ago, 2135,000 bushels; previous week, 250,000 bushels; last year, and the looking was the range of prices of the stock and extensive covering the stock in provious week, 250,000 bushels; last year, and the losing being buoyant at 125, the bunded to oction that would insure profitable notoection on refined surgers, howed a nervous apprehension under the period strength of the stock and extensive covering the thirty for thirty-five bushels to the acre.

The outstanding short interest, which has been reported to action the stock of the stock and extensive covering the thirty-five bushels to the acre.

London, July 12.—According to the Mark Lane Express the last forted to over 150 to the stock of this stock

The following was the range of prices yesterday, as furnished by the C. S. Lee Commission Company, 200 New York Life building.

PENSION AGENCY REMOVAL.

Operation of Cleveland's Order to Bo Merely Suspended-Radical Consolidation Possible.

Washington, July 12.-At the cabinet neeting to-morrow, it is likely that, in addition to the consideration to be given the currency measure, the president's order, now only awaiting his signature, relative to the consolidation of pension agencies, will be brought up in some form. President Cleveland's order reducing the agencies from cighteen to nine was to take effect on September 1 next, and to-morrow, in all probability, the cabinet will be definitely advised and consulted as to the dicument. The order as now framed will merely suspend the carrying out of the consolidation order of the last administration until further notice. There is a feeling that, in time, all pension payments should be paid from the agency at Washington, and the administration's view is that it might be better to take this radical action when any change is made in the system. For the present, however, the operation of the old order is simply suspended, consolidation as provided for being regarded as impracticable now and involving too much cost and inconvenience. Secretary Bliss returned here to-day and had a talk with the president and action doubtless will closely follow to-morrow's cabinet session.

SPECIAL ORDER ISSUED BY THE AC RICULTURAL DEPARTMENT.

Relates to the Recently Quarantined Counties Down in Texas-News Items and Personal Gossip From the Yards.

The agricultural department at Washington has issued the following special order in reference to the recently quarantined ounties in Texas by the state authorities U. S. Department of Agriculture,

Washington, D. C., July 6, 1897. In consequence of the discovery of spicnetic fever infection in the counties of Randall, Swisher, Hale, Lubbock, Lynn, Bor-den, Howard, Mitchell, Scurry, Fisher, Jones, Knox, Foard, Wilbarger and Harde-man, in the state of Texas, and the estabman, in the state of Texas, and the establishment of a quarantine on said counties by the duly constituted authorities of said state, it is hereby ordered that the counties above named shall be added to the area quarantined by the special order modifying quarantine line for the state of Texas, dated January 28, 1897.

It is further ordered that no cattle shall be removed from any of said counties to, or be allowed to pass through, any uninfected area, except in the manner specified in the regulations concerning cattle transportation issued by this department January 2, 1897, unless satisfactory evidence is give that they are not affected with splene lever and have not been expused to tontagion thereof, in which case a specipermit for such movement may be issue by an inspector of the bureau of animal industry, or by the Texas live stock sanitary commission.

This order will remain in force until No-

by an inspector of the bureau of animalindustry, or by the Texas live stock sanitary commission.

This order will remain in force until November 15, 1887, unless otherwise ordered.

JAMES WILSON, Secretary.

Since the assuing of the above the toilowing counties have also been quarantined by the Texas live stock sanitary board: Classcock, Garza and Haskell. The above order, Colonel Dean says, will not conflict with the recent arrangement entered into with the Fort Worth stock vards people, whereby cattle from these counties will be admitted into Kansas after being dipped and passing a double inspection.

William E. Otis, Winfield, Kans, one of the best informed men in Cowley county, writes the Zeb F. Crider Live Stock Commission Company, under date of July lo: Corn is not hurt in the least in Cowley county, and most of the fields are in tassel and have two ears to the staik. It is all of a dark green color and is rank and thrifty. He states that they have had fine rain all over the county, varying from three to six inches, and that the ground is full of moisture. It has rained each Sunday for the last four weeks and there has just been harvested the largest wheat crop had for years, the yield being thirty to forty bushels.
